

The State of New Hampshire  
**DEPARTMENT OF ENVIRONMENTAL SERVICES**

Thomas S. Burack, Commissioner

November 10, 2008

Dear HHW Coordinator:

Thank you for your interest in organizing a creative household hazardous waste special project. Enclosed is the application package you requested.

**All of the information necessary to complete the application must be received by this office on or before February 1, 2009.** The application must include a general description of the special project and letters of commitment for all participating communities, if your proposal is for a regional project.

Because this is a new grant program, it is important for potential applicants to open and maintain a dialogue with DES before and during the application process. **We strongly urge you to contact us to discuss your project ideas before you spend the time and effort to complete a full application.**

Special Project Grant guidance explaining the program, application and award process is available on request or at the DES HHW web site at:

<http://des.nh.gov/organization/commissioner/p2au/pps/hhwp/index.htm>.

If you have any questions concerning the collection program or the application process for state grant monies, please contact me at (603) 271-2047 or by e-mail at [hhw@des.nh.gov](mailto:hhw@des.nh.gov).

Sincerely,

Dean F. Robinson, Jr., Coordinator  
Household Hazardous Waste Program
